We believe in the saying that "good food comes from good ingredients" but moreover, it must be put together with passion!

After several months of arduous (but loving) work, Alfresco officially opened in April 2023. Inspired by travel and international cuisine we have put together a fusion of cultures - that you can taste!

Our kitchen prioritizes the use of ingredients from our proximity which creates a connection to Coron, the crown jewel of Palawan. We collaborate with local suppliers from the Calamianes Islands in order to help propagate a circular economy.

We consciously focus on reducing single-use-plastic and CO2 emissions through responsible use of resources, segregation, and recycling. As part of our commitment, we have created the Gastrobar to run on solar energy, which today powers 64% of our requirements - emissions free!

We are big dreamers and look forward to implementing more sustainability initiatives and recruiting more local products, thereby helping our environment, and keeping the beauty of nature around us.

Please support us by sharing this passion with others!
